

EsplAnade[®]

*Long-term
residual control*

with a lower use rate

If you are a vegetation maintenance manager, you are probably responsible for maintaining large industrial, gravel and bareground areas where weeds are not allowed. This is not an easy job. You have to work with multiple tank mixes, coordinate application schedules and of course, stay within budget. Thankfully, there's Esplanade. With a long residual control and a lower use rate, Esplanade is setting a new standard in bareground weed control. Now you can raise the bar without raising your budget.

Long-term residual control

with a lower use rate

Developed for the vegetation management industry, Esplanade is ideal for use in non-crop areas including railways, roadsides, rights-of-way, powerlines, airports, public utilities, fence lines and natural area regeneration. Esplanade is advancing weed control.

Esplanade is unlike anything else on the market; a pre-emergent herbicide that features a new mode of action, providing effective, long-lasting control.

Benefits & Features of using Esplanade

- // Convenient and easy to use packaging
- // Odourless and non-staining to surfaces
- // Up to 60 times less active ingredient on the ground compared to some competitor products. Delivers a more environmentally sustainable solution for you and your customers
- // Applied at low use rate 150 mL/ha and formulated as a 500 g/L suspension concentrate (SC)
- // Less post-emergent herbicide applications results in reduced labour and fuel costs
- // Long-term residual control on over 30 grass and broadleaf weed species

Science for a **better life**

Esplanade®

Solution for Tough Weeds

- // Superior broad-spectrum control of over 30 weed species, including annual grasses & broadleaf weeds
- // Esplanade Herbicide will give residual control even on tough to manage weeds like resistant Annual ryegrass, Fleabane, Veldt grass
- // Unique mode of action helps manage herbicide resistance and plays an integral role in an integrated weed management strategy

Areas of Use

Railways, roadsides, rights-of-way, powerlines, airports, public utilities, fence lines and natural area regeneration.

Application rate and delivery

Apply Esplanade uniformly using a calibrated sprayer, prior to weed seed germination. Uniform application is essential for satisfactory weed control. Always use a tank mix partner, such as Roundup Biactive®, when weeds are present.

Grasses, Sedges, Rushes

Broadleaf Weeds

Annual Ryegrass

Veldt Grass

Canadian Fleabane

Asthma weed

Euphorbia hyssopifolia,
Euphorbia hirta

Billy goat weed

Ageratum houstonianum

Burr medic

Medicago polymorpha

Canadian fleabane

Conyza canadensis

Capeweed

Arctotheca calendula

Catsear, Dandelion,
Flatweed

Hypochaeris radicata

Chickweed

Stellaria media

Clover

Trifolium sp.

Cobbler's pegs

Bidens pilosa

Jersey Cudweed

Helichrysum luteoalbum

Paterson's curse

Echium plantagineum

Scotch thistle

Onopordum acanthium

Sow thistle, Milk thistle

Sonchus oleraceus

Spear thistle

Cirsium vulgare

Thickhead

Crassocephalum crepidioides

Annual Ryegrass

Crabgrass

Crowsfoot grass

Knobby club rush

Pale pigeon grass

Panic veldt grass

Silvergrass

Silvery hair grass

Soft brome

Summer grass

Sweet vernal grass

Tall sedge

Toadrush

Wild oats

Windmill grass

Winter grass

Yorkshire fog, fog grass

Lolium rigidum

Digitaria ciliaris

Eleusine indica

Ficinia nodosa

Setaria pumila

Ehrharta erecta

Vulpia bromoides

Aira cupaniana

Bromus molis

Digitaria sanguinalis

Anthoxanthum odoratum

Carex appressa

Juncus bufonius

Avena sativa

Chloris truncata

Poa annua

Holcus lanatus

Trust

the Bayer brand

// Product Profile

Active Ingredient

500 g/L indaziflam

Mode of Action

Inhibition of cellulose synthesis
Group O

Formulation

Suspension Concentrate (SC)

Packaging Shipper

4 x 1 L box

Product safety

May irritate the eyes. Avoid contact with eyes. When opening the container, mixing, loading and using the prepared spray, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing). If applying by equipment carried on the back of the user wear cotton overalls buttoned to the neck and wrist (or equivalent clothing) and elbow-length chemical resistant gloves. Wash hands after use. After each day's use, wash gloves and contaminated clothing.

Regulatory information

All pesticides are regulated under the Agricultural and Veterinary Chemicals Code Act 1994 to ensure that they do not pose an unacceptable risk to human health and the environment.

For information regarding pesticide regulatory process please visit the Australian Pesticides and Veterinary Medicines Authority website at www.apvma.gov.au
